

Lent 2025

Term Card

Welcome to Lent 2025!

Dear Members and Friends of the German Society,

Lent Term is underway and we are very excited to share with you a great lineup of events and socials for the coming weeks. Highlights include the Spring Ball in Westminster College, a speaker event with Marcus Schindler (Chief Scientific Officer of Novo Nordisk), and a multi-society Karneval with our friends from Oxford and the London universities. And of course, we're teaming up with a number of Cambridge societies for formal swaps and socials. As always, we are also offering you the opportunity to connect with our partners over sponsored dinners and to gain valuable insights through their professional skill workshops. These events are an excellent way to network and learn about career opportunities in various industries. This term features events with our partners McKinsey, d-fine, and Bertelsmann.

With committee elections coming up this term, we are looking for people willing to get more involved in the Society! Get to know current and potential future committee members at our 'Meet the Committee' social. Whether you're an undergraduate, a Master's, or a PhD student, we encourage you to put yourself forward. It's a fantastic way to develop new skills, take on leadership responsibilities, and shape the future of our society.

We look forward to seeing you this term!

Marcus Schindler

Dr Marcus Schindler is the Chief Scientific Officer (CSO) of Novo Nordisk, a leading global healthcare company and Europe's most valuable company, recently gaining significant public attention for its innovative treatments in weight management, obesity care, and diabetes. With extensive experience in pharmaceutical research and development, Dr Schindler plays a pivotal role in driving scientific innovation at Novo Nordisk, helping to develop groundbreaking therapies that improve the lives of patients worldwide.

More speaker events may be announced throughout the term – keep an eye out for our social media posts and newsletters!
